

## AT MERCY OF KAISER.

Prince Now in Hands of His Brother.

Pumping Process Likely to Be Energetic.

Thousands of People Cheer Wildly as Henry Lands at Cuxhaven.

BY THE NEW ASSOCIATED PRESS—P.M. CUXHAVEN, March 18.—[By Atlantic Cable.] The return of Admiral Prince Henry of Prussia to Germany was safely accomplished this afternoon, amid all the pomp and circumstance with which the Emperor's imperial brother has seen fit to mark the successful ending of Prince Henry's American mission.

The same good fortune of freedom from untoward incidents which characterized the Prince's trans-Atlantic journey continued until the end, and the landing occurred during a period of brilliant sunshine after an overcast sky.

The Hamburg-American line steamer Deutschland from Cherbourg having on board the Prince and his suite, was first sighted at 5:30 o'clock this afternoon. The German battleship Kaiser Wilhelm II steamed down the roadstead to meet the Deutschland, and returned, according to the big line.

Deutschland tied up to the new stone quay, and was the first ship to dock there. Emperor William stood upon the quay, surrounded by high naval and municipal officials. As representative of the German empire, the Emperor's son, Crown Prince Wilhelm, stood at the Emperor's side.

The quay was decorated with flags of all the States of the empire, and thousands of spectators who covered the roofs of the great warehouses and the wide spaces overlooking the scene, cheered wildly as the Prince stepped down the gang plank from the steamer. Emperor William kissed his brother upon both cheeks, and shook hands with the members of his suite, saying a few cheerful sentences to each.

In the meantime the guard of honor and the veterans, the Emperor and his party, Prince Henry and his suite, and the Kaiser's household, stood in front of the Prince Henry walked to the Kaiser's yacht, which was anchored at the quay, and the Emperor's yacht Hohenzollern played the national anthem. The passengers on the Deutschland greeted the Prince's rail, and cheered heartily during the ceremony. Some of the American guests, including the American ambassador, Mr. Clegg, and his wife, were also present.

A banquet was served on board the warship. **RIOT AT FORT MORGAN.** Soldiers and Civilians Use Pistols and Knives, one Man Being Shot to Death and Fifteen Wounded.

BY THE NEW ASSOCIATED PRESS—A.M. MOBILE, Ala., March 18.—A report received here today from Fort Morgan, Ala., at the entrance to Mobile Bay, states that a riot between soldiers and civilians occurred there Sunday night.

The news was not learned until a private boat came in today. About forty or fifty soldiers were drinking at a saloon on the shore of the reservation when the fight started. Pistols and knives were used to have been used.

Michael Keough, who was discharged last Saturday from the army, was shot to death and fifteen others were wounded in the shooting and cutting.

**WORK OF SAFE BLOWERS.** They Cause a Fire Which Results in Destruction of Large Number of Buildings in Marissa.

BY THE NEW ASSOCIATED PRESS—P.M. MARISSA, Ill., March 18.—Safe blowers are responsible for a fire which destroyed \$150,000 worth of property in Marissa last night. They entered the Commercial Hotel, where fifty persons were asleep shortly before midnight and blew open the safe. Obtaining \$2500, the robbers escaped, leaving the building in flames.

The fire spread rapidly, and was not checked until a dozen business buildings and several residences with their contents were destroyed. The loss is well covered by insurance.

Several persons had narrow escapes from death.

**KING WILL FEED THE POOR.** LONDON, March 18.—Half a million of London's poor are to be fed by King Edward during the coronation week. His Majesty notified the mayors of the city that the sum of £20,000 was placed at their disposal, and he invited them to make the necessary arrangements to entertain the very poor to the number of 500,000 at a dinner in celebration of his coronation.

## NINETY-SEVEN PANCAKES.

What Morris Flynn Devoiced in the Contest for a Silver Cup and the Eating Championship of Hoboken.

BY DIRECT WIRE TO THE TIMES: GOSHEN (N. Y.) March 18.—[Exclusive Dispatch.] A buckwheat pancake-eating contest took place last night in Hoboken, New Jersey, in which twenty men gorged themselves with the product of the griddle in the effort to win a silver cup and the title of champion eater of the neighborhood.

The conditions were that each contestant must eat not less than twenty-five pancakes, and the person eating the greatest number over that to be declared the winner. The contest was held at Squire Hull's house. The day pancakes disappeared was a caution, until each had eaten twenty-five, and then some of them began to weaken, and one by one they quit until only one, Morris Flynn, remained, and he ate ninety-seven. The three next highest had eaten 96, 91 and 59.

## NEW YORK BROKER TAKEN INTO CUSTODY.

MAYER ACCUSED OF STEALING A HUNDRED THOUSAND DOLLARS.

Former Partners Swoon Out the Warrent—Mayer Declared That the Charge is Result of Their Business Differences and Will Not Stand.

BY THE NEW ASSOCIATED PRESS—P.M. NEW YORK, March 18.—Max C. Mayer, formerly a member of the brokerage firm of Rathbone, Mayer & Co., was taken into custody today by the grand jury of New York.

After his arrest, Mayer made the following statement: "I did not intend to steal a cent from my partner, but I was in New York all day yesterday, and came out here only last evening to spend the night with my mother."

"I have asked my attorneys to make a detailed statement. The charge will be dropped, and I will be released."

## FIRE COST A MILLION.

Picturesque Blaze on Water Front.

Pier and Loaded Ships Served as Fuel.

Two Men Probably Perished and Loss of Life May Be Much Greater.

BY THE NEW ASSOCIATED PRESS—P.M. NEW YORK, March 18.—A swift and picturesque fire tonight destroyed the pier of the Phoenix steamship line on the Hudson river front, with many bales of cotton and hay, burned that company's vessel, the British Queen, to a hulk; consumed several lighters and their cargoes; damaged a dock belonging to the Barber steamship line, and for a time threatened the property of the Holland-American line.

The loss, according to estimates tonight, will approximate \$1,000,000.

Whether any lives were lost is difficult to say. While the conflagration was at its height, and after it had been reduced by the firemen and fireboats, rumors were rife that several men perished. It was tolerably certain at midnight that Chief Engineer Scott of the British Queen was burned to death on the pier, and that a sailor named James met the same fate. One of the men who escaped says that he saw several others who were burned to death.

The fire started in a warehouse on the pier, and spread to the British Queen, which was burning to death on the pier, and that a sailor named James met the same fate. One of the men who escaped says that he saw several others who were burned to death.

## THE CITY IN BRIEF.

## NEWS AND BUSINESS.

## Struck by a Car.

H. B. French was knocked down by an electric car near the corner of Third and Spring streets last night and painfully injured.

## Hoy's Yesterday.

Chinese Inspector Putnam yesterday arrested in this city a Chinese laborer named Quan Hoy, on a charge of being illegally in the United States.

## Temperance Meeting.

The W.C.T.U. will hold a meeting in the First Methodist Church tomorrow afternoon at 2:30 o'clock, at which it is thought Francis Murphy will speak.

## Robbed a Millinery.

The police were notified yesterday that the millinery store of Christy & Hughes, No. 349 South Broadway, was entered by burglars Monday night and three fine hats were stolen.

## Orphan's Reception.

On Tuesday, March 25, a reception will be given at the Orphan's Home, corner Alpine and Broadway, during afternoon and evening. Everybody interested is invited, and no donations are solicited.

## Concert for Wyatt.

Al. Field's minstrel band will "open the Mason Opera-house" before it is built. At the site of the new theater on Broadway, between First and Second streets, tomorrow morning, the musicians will give a complimentary concert to Harry Wyatt, the manager.

## Compulsory Soup.

Chief Clerk Frank Cummings of the Angelenos in the narrative of this: "At one of our tables the other day a man was seated, awaiting the coming of the waiter for his order. Presently, a demure miss waited up, and said, in her sweetest voice: 'Will you have soup?' The man leaned back and looked at her. 'Is it compulsory?' he asked, quizzically. A troubled look came into the girl's face. 'I-I don't know, but I'll go and see' and she trotted off."

## Wonders Never Cease.

So far no one has applied to the Board of Education for the position of census marshal for the census of the city's school population next month. Some person who has to be elected to fill the position at the next meeting of the board, a week from tonight. The pay of a school-census marshal is usually \$5 a day, and he has the appointment of several deputies, who are paid from \$2.50 to \$3 per day. Children between 5 and 17 years of age are enumerated.

## Young Girl's Sad Death.

Miss Genevieve B. Marsh, daughter of Martin C. Marsh, residing at No. 1256 Iowa street, died at the Sisters' Hospital at 3 o'clock yesterday. She was taken with typhoid pneumonia, while a student at the Pico Heights convent, where she was confined to her bed for a month Monday night. It was decided to remove her to the Sisters' Hospital for an operation, in the hope of saving her life, but it was of no avail, and she died, as stated. She was a bright girl, just budding into womanhood, and her death is a great shock to her family and friends.

## Lamar Goes Up.

George Lamar, the Greek who was convicted in the United States District Court last week for conspiring with the Chronis brothers in a counterfeiting scheme, was sentenced by Judge Wilbourn yesterday to two years in San Quentin. The prisoner was immediately taken north by Deputy Marshal McCulloch.

## Cooke is Clever.

The audience that gathered at Simpson Auditorium last night at the People's Course entertainment found that "Put Luck with a Poet" was not had luck at all in the company of Edmund Vance Cooke, the Ohio rhymer. Mr. Cooke took a "handful" of his original compositions—both humorous and sentimental—and interpreted them with much charm, save that he spoke in a voice that was indistinct except in the immediate vicinity of the platform.

## As an actor of written character Mr. Cooke is clever, and takes the part of the humorous characters in his dialectal selections with amusing fidelity to nature.

As the trio, "Unverstandlich," the German optimist, "Fin de Siecle," the English pessimist, and "Terry," the Irish doubter, he was, perhaps, at his best.

## Complaint Against Fresno.

A complaint was filed in the Federal Court here yesterday by Septer E. Johnston and Barton T. Alford against the city of Fresno. The bill alleges that Johnston is the inventor of an apparatus known as the sewer-cleaning brush, to which he received a United States patent in 1933, for seventeen years. In the same year he transferred a one-half interest in the patent to Alford. The complainants allege that the city of Fresno has been infringing on their rights by contracting and operating their sewer-cleaning, and pray that the municipality be ordered to pay over all the profits derived from such use, and restrained from further use; that all apparatus in the defendant's possession be destroyed; and that the defendant be assessed for damages received by the complainants, and that such assessment be multiplied three times to placate their hurt feelings.

## Colored Business Men.

The Colored Business Men's Association met Monday night at the office of Dr. George W. Taylor, No. 252 1/2 South Main street. The association has incorporated under the laws of California and raised its capital stock from \$10,000 to \$25,000. The directors have been selected as follows: B. W. Brown, J. L. Edwards, R. C. Owens, Hillard Strickler, Eugene Walker, C. C. Flint, James M. Voss. The association will encourage business ventures by men of the colored race, and will make investments of its own. Plans for securing tracts of real estate for colonization purposes are being considered. During the past few months many colored people have come here from the Southern States, and it is stated by one of the officers of the association that colored people are now arriving in Los Angeles at the rate of twelve or fifteen a day. The association hopes to help these people get settled in proper locations, and eventually may open up tracts of ranch land for their use.

## BREVITIES.

"The Shadow of a Great Rock: Over-Quoted Temptations, and What They Mean to Us," will be Rev. Dr. George Thibault Dowling's topic at the closing United Lenten service to-night at 7:45 o'clock in the Church of the Ascension, 801 1/2 Highland Boulevard, Brookline-avenue cars from corner of First and Spring streets, stop at St. Louis street and walk half block.

## Fine Portraits and Carbons.

Unexcelled portraits, natural as life; prices reasonable. Palace Studio, 351 S. B'way.

## Dr. B. Zachan.

Dr. B. Zachan, chiropractor, begs to announce that he has moved to new offices of his own at 215 West Fourth street, opposite Hotel Angeles. He has Dr. Smith of St. Louis for an assistant,

who is a good chiropractor. He shall now be glad to have his many patrons call when convenient to do so.

## Candy Novelties For Easter.

A motherless brood yet perfectly contented they appear, these  
little chicks and ducks huddle beside their protector, "Mistress  
Bunny"; and the little elf from Fairyland, the stocks and babies—all join  
in posing for inspection of the little soldiers who have heard such wonderful stories of Easter. These little novelties  
have their uses for they have some receptacles to be filled with candy and can be given for Easter favors by both  
old and young. These novelties are on sale beside the candy department in front of the elevators, first floor.

## LOCAL SPORTING RECORD.

## DAY TO HOPE FOR A FIGHT.

Jeff Puts Fitz Wise by Personal Telegram.

Century Club Will Wait Until Tonight.

Sporting Circles in Gloom for Awhile—Herrera-Hegarty Draw.

Los Angeles still has a chance for the Jeffries-Pitts fight, and today will decide it.

The Century Club decided last night to give the Cornishman one more day in which to declare himself. The limit of time first expired yesterday afternoon, and unless he breaks silence before midnight tonight the offer of a \$25,000 cash purse will be withdrawn.

The extension of time was made in response to the plea of Jeffries, who is extremely anxious to defend the championship once in his home city. Jim sat down and wrote a heart-to-heart telegram to Fitz, explaining the many advantages of the Los Angeles bid, and urging him to act wise and accept. This is the first personal dispatch sent by Jeff to Fitz, and the champion is quite confident it will bring results. He asked the club managers to give reasonable time for a reply, and so Fitz will be given all of today to make up his mind.

SPORTS WERE BLUE.

Local sporting men were in a very bad humor yesterday over Lanky Bob's actions, and many predicted that if this bargaining is continued the public will be disappointed. The fight will either be called off or go to a front. When the noon hour passed with no acceptance, the sports thought it was all over, and were in other quarters making up their minds. There were long faces in the quarters of the club, and it has now become a matter of popular public interest.

Pitts' actions are inexplicable to the average mind on any ground, but that he is playing into the hands of Promoter Jim Kennedy of San Francisco, although the latter may have a good reason for his action, is a "here's hoping" with the sports today.

JEFFRIES CHARITABLE.

Jeffries is charitable enough to believe that Pitts is merely a center. He expressed his hope that night as still very hopeful that the fight will come here, and said he didn't think Kennedy is responsible for the delay.

"Fitz is a funny fellow," said Jim Kennedy. "I don't know what the matter is, but he does think he does himself. I sent him a long dispatch tonight explaining fully just how things stand, and urging him to accept. This is the first personal telegram I have sent to him, and I only did it on the request of Delaney."

"I told Fitz that this is the very best thing in sight; that there is a good piece of money to be made here, and that 'Pitts' doesn't look at all here, and expect an answer in the morning. The Century Club has promised to wait, and I believe that Fitz will come to time."

COMMENCES TRAINING.

"As you know I am very anxious to fight here during the Pitts week, about May 10, and Delaney is just crazy to have the contest pulled off here. The club has a forfeit of \$500 posted and they would be expected to put up \$2500 to guarantee our appearance in the ring."

Jeff began light training yesterday, just enough to keep him from taking on weight. He trotted a few miles behind a cart on the coast road, and then took a turn with punching bag and dumbbells in the morning. The big fellow perspired like a sponge, although he is not now excessively heavy for his size.

NO FOOLING, SAYS MORLEY.

Jim Morley of the Century Club lays all the blame for Fitz's dodging at Kennedy's door.

"This fellow Kennedy is behind it all," he said last night. "He is trying his best to chuck us out of the fight, get back of the club that gets it. But our \$25,000 cash bid proves the stumbling block. He is afraid to let a fight for him to be able to get a profit in San Francisco."

"We have extended the time for Pitts' decision to reply to tomorrow night. He will have all day to consider and answer the message Jeffries sent tonight. If he does not declare himself in that time, we will withdraw. We entered our bid in competition as they demanded, and it was the best offer we could make. We propose that they shall make money off us, or raise our bid after it has been announced."

DELANEY SUGGESTS SHARKEY.

Billy Delaney, manager for Jeffries, said yesterday when interviewed at Oakland:

"I do not understand Pitts' actions. One moment he will talk to you sensibly and like a gentleman, and then all of a sudden he flies off the handle and offers the world like a crazy man. I offered him the selection of two reputable men to referee, George Siler and Charles White, both of whom have referred all the big fights. I could get no satisfaction out of him, and failing to get a reply on that subject, he offered to allow him to name the men of his own selection, but again he had nothing to say. When I tried to explain things to him, but he does not seem to like it. If he does not come to time we will open negotiations with Sharkey."

RABBITS LIKE LIFE.

Artistic Decoration of People's Store Display Windows for the Easter Opening—Crowd on Hand.

"Say, ma, do they sell them bunnies?" asked a little tot, as he pointed to the lifelike jack-rabbits in the windows of the People's Store, yesterday.

The sidewalk was jammed with people, mostly ladies, studying the artistic Easter window display at the popular big store, and the clerk remarked that the former owner of many other compliments.

Each rabbit has its paper collar and a long "rabbit's age." In real rabbit-bait fashion. There are even

dozen of them, and their twenty-four ears stand up like exclamation points in the midst of the surrounding mass.

A crowd of children gathered in front of one window, and began "choosing" until the supply gave out. "I choose this," and "I choose that," had nearly gone the rounds, when a rosy-faced little "lad," after a moment of consideration, gravely announced: "I choose 'em all!"

A tall, stately woman, having in tow a small man, evidently her husband, steered her craft up to the window containing the display of imported gowns. The little man gazed, and softly said: "My love, I would not care to see you in one of those dresses. You look so sweet in the one you have, and he led her gently but firmly away, while she cast longing glances at the forbidden sweets.

Two Chinamen paused to gaze, and after due consideration, one said "Um," and calmly walked away. Following them came a young lady who said to her companion: "Parasols to match, again, in a disgusted tone, evidently professing to be a devotee of the baby, led alone in his carriage outside the window, while his pretty mamma went inside—well, really, would be best not to try to repeat what it said.

But the windows—there was the gaudy, seductive window where the white and where the "creations" were gathered and bewildering to the average masculine mind. There was a real life-like quality to the green and white, the brilliant coloring and exquisite texture of the fabrics.

It will not be safe to speak above one's breath this spring of the "light-colored" window, because the indications are that all who follow the correct style in kids, will come under that.

The art window, the sweet things in shoes, and the display of exquisite underwear, ladies, each attracted their own devotees.

Of the hats—well, they told not, neither do the sports, that the four women who wear them do not, but the hats are like the lilies of the field.

No, it is safe to say, that while the spring and Easter opening holds at the People's Store, no female member of woman will pass by on the other side.

## HERRERA AND HEGARTY FIGHT TO A DRAW.

Twenty Rounds of Fast and Furious Punching.

Australian Does Most of the Leading, but Couldn't Land a Knockout Blow—Bakersfield Boy Did Not Show the Yellow Streak.

(BY THE NEW ASSOCIATED PRESS—P.M.) BAKERSFIELD, March 18.—The fight of Australia and Aurelio Herrera, the local boxer, fought a twenty-round fight tonight at the Scribner Opera-house, which was packed to suffocation. The fight demonstrated that Herrera cannot deliver a knockout punch, and that Herrera, despite the statement to the contrary, is devoid of any yellow streak. The fight was refereed by Billy Lavigne, but the decision was given by Tom O'Reilly for Herrera and Michael Brennan for Herrera. The men having been appointed to decide as to the winner in the event of a draw.

There were many rumors in circulation to the effect that the fight was a "draw," but the decision was given by the judges. There are many who are of the opinion that Herrera was the winner, but the decision, and a referee being given the right to name the winner, he would probably have named Herrera. The referee, as he did most of the leading.

In the last seven rounds, however, Herrera was the best of the two, and during that time the fight was the fastest witnessed in this city for years past. The fight was a hard one, and the referee was a slightly damaged man, came out of the mill without a scratch. The fight was a hard one, and the referee was a slightly damaged man, came out of the mill without a scratch.

Two four-round preliminaries ended in draws.

## SMALLPOX UNLOADED, SAN DIEGO SCARED.

CASE ON STEAMER SPOKANE, AND VESSEL QUARANTINED.

Nearly Fifty Passengers Scattered All Over the Town and Quarantined Last Night—Alleged Smuggler Held.

(SPECIAL CORRESPONDENCE OF THE TIMES.) SAN DIEGO, March 18.—The steamer Spokane arrived this morning from San Francisco with smallpox aboard, and will be held in quarantine for some time. The vessel brought nearly fifty passengers, who were allowed to go ashore and scatter as they saw fit. J. Zimmerman had told a fellow-passenger that he was sick, and had been directed to the office of Dr. C. Valle of the Board of Health. Dr. Valle found his malady to be smallpox, and he and his wife and five children were sent to the post house. They are from Carlsbad, Mont., and took the steamer at San Francisco as first-class passengers.

The Board of Health took the matter in hand, and at a conference, ordered the steamer quarantined. Meantime, the private baggage was all distributed, and nearly all of the passengers were scattered all over the town. At the request of the city officials, Dr. McKay, government quarantine officer, telegraphed to Washington and received instructions to take care of the case. The steamer will be transferred from the dock to the quarantine station tomorrow morning. It is thought that the Pacific Coast Steamship Company will send down a ship's crew from San Francisco on the Spokane, which will arrive here tomorrow morning, so that as soon as the Spokane is thoroughly fumigated, which will be done by the city health officers, the crew will be kept in quarantine for two or three weeks.

There was considerable criticism of Capt. Alexander that he should bring the cases into the city, but that official claimed that he had not the slightest intention that there was smallpox on the steamer, and that he had had the vessel disinfected by the city health officers.

The affair has developed quite a scare here, as the passengers were sent all over the city and Carlsbad. There was another small scare at the courthouse in the afternoon, because of the presence of an old squaw

and papoose, who appeared to be broken out with something. A physician in the midst of the surrounding mass, and he declared it was not smallpox.

The Helping Hand Home was quarantined this evening. The house was owned by Zimmerman and family having been there this morning, leaving baggage there. There are about thirty inmates.

ACCUSED OF SMUGGLING.

Santiago Crosthwaite was bound over by United States Commissioner Knutes this afternoon to answer to the United States District Court, Bond was fixed at \$500, which was not furnished. The defendant testified that he had sold the horses to Herbert below the line, and that he had nothing to do with the smuggling transaction. He is accused of having been implicated in the smuggling of twenty-three horses across the line a year ago.

Plenty of room at "Hotel del Coronado."

## HEAVY RAIN.

Shows Early This Morning. Sends Rivers Down the Streets in Ten Minutes—Prospects for More.

Main basin falling in Los Angeles at 1:30 o'clock this morning. It was an extremely heavy shower, and five minutes after the first drops came miniature rivers of muddy water were rushing down the streets and over the walks at intersections. Up to the hour of going to press there was a steady precipitation, with occasional torrents.

Indications are good for continued showers today in Southern California.

## FLASHES FROM THE WIRES.

A hand of 200 Albanians recently attacked the town of Filippa. Several persons were killed or wounded on both sides.

The plant of the New Orleans Cotton and Manufacturing Company was damaged \$80,000 by fire yesterday.

A site for St. Gabriel's statue of Gen. Sherman presented to New York City by the Chamber of Commerce. The statue was damaged \$80,000 by fire yesterday.

The increase in emigration is seriously alarming the Greek government. During the last few weeks the Greek people have gone to seek their fortunes in the United States. The press is calling on the government to introduce a law to restrict the immigration.

The recent establishment of a life of steamships to run between the United States and the Hamburg-American Company has caused German newspapers to complain that the German line is being used to transport goods to compete with German goods in the Orient.

London, March 18.—The Imperial Tobacco Company has issued a circular letter to its agents, asking them to inform their customers who undertake not to let American goods for a term of years.

## HOW TO BE HEALTHY AND BEAUTIFUL

By Mrs. Symes

## Sleep the Beautifier, and How It May be Made to Efface Haggard Looks and Telltale Traces of "Nerves" and Laded Mentality

## Proper Dress, Couch, Position of the Body and Ventilation to Get the Most Benefit

**HEALTH**, beauty, even length of days, depend largely upon refreshing sleep. Yet from childhood most of us battle every twenty-four hours against the effects of a restless sleep, the cry of exhausted nature for needed rest. We are perfectly aware of the benumbing effects of a restless sleep, but most of us fight against the power of the drowsy god as though his offices were fraught with danger. The rush of the day we live in finds us every moment with more work or pleasure—which is labor disguised than can be accomplished in the allotted time, and yet we rest only under protest.

Small wonder that foreigners of all classes remark the "tired" expression of the American woman of every age. We have earned that expression legitimately. We appear weary and fatigued because in truth we are so.

Not only city-bred women have this habit, but country women, and country wives and daughters also bear the tired countenance and aching, tired bodies and exhausted brains.

The society woman who begins her day at 4 in the afternoon and seeks her bed in the early hours of the following morning leads not a white-hot life, but a life that the farmer's wife who begins her morning daily drudgery before sunrise and, with out rest or diversion of mind or body, works hour after hour as unrelentingly as though she were running a treadmill through a working day sixteen hours long.

## Lack of Sleep Injurious

The shopgirl, the professional woman, the domestic servant, the little mother, all women of the twentieth century seem to have planned to defeat the effects of nature's sweet restorer—the only restorer. It may as well be acknowledged, for the wear and friction of our waking hours. Sooner or later the woman who will not sleep when she can discover that she has lost the faculty for repose. When she gets to a point where she cannot sleep, she has reached a dangerous place in the story of her life.

The private hospitals and the public institutions are peopled with victims of drugs whose medical histories have practically the same origin:

"Mrs. X—Morphine victim. First took the drug for insomnia."

"Mrs. Y—Laudanum addict. Suffered from sleeplessness; was advised to take a few drops of laudanum; increased the dose until she became irresponsible."

"Mrs. Z—Sedative addict. Suffered for years from insomnia; sedative was prescribed; habit was acquired."

These are the familiar records of drug cases. Hundreds of them in every hospital tell the same story. I am not inventing.

Most drug habits—and, oh, the pity of it that there should be thousands and thousands of women in this terrible bondage—first learned the tyranny of narcotics because sleeplessness, so long courted and caressed, had finally turned and become a too cruel master. Sleep we must have—balm, restful oblivion—if we would make life worth living.

But do not every reader of my words—do not for one instant believe that sleep produced by narcotics can take the place of normal rest.

Perfect sleep must be natural, not drug-induced.

## Ten Hours Not Too Much

This is the sleep so much described by a French psychologist as the greatest boon to mankind, our consciousness withdrawing into the shade, that it may rest from the burden of thought.

"To sleep," says Angel, "is to strain and purify our emotions, to deposit the mud of life, to calm the fever of the soul, to return into the bosom of maternity, thence to resume health and strength."

Sleep is innocence and purification. Blessed be he who gave it to the poor sons of men as the sure and faithful companion of life, our daily healer and comforter.

## Strength, Health, Beauty and Happiness

depend upon a full supply of natural sleep. Let every woman actually make up her mind that the importance of sleep is paramount to most other hygienic obligations, and let her use the same will-power in cultivating refreshing sleep that she devotes to her clothes or her house-keeping, and we shall soon have cause to be astonished and delighted at the growing beauty and increased vitality and energy of the race. Ten hours of repose is not too much for the nervous, highly-strung woman from 15 to 40 years of age.

Eight hours will do for the placid woman during the same period, and less is required for older women, although women between 50 and 60 years old should have more hours of normal rest than a younger woman, and thus increase her chances for a vigorous old age.

Make your preparations for sleep as you would for any other important function of life.

pure air, which can only be secured by ventilation. It will not suffice to air the room before going to bed, though this should always be thoroughly done.

It is impossible to sleep in a room in which fresh air has not free access without inhaling vitiated air, and the carbonic gas of air that has been breathed is poisonous. There are thousands of people who have never fully experienced the joy of living because they have not learned the exhilaration produced by long sleep in a room where there is a constant current of pure, life-giving fresh air. It is the exception to find persons who are

languid. The weak-lunged subject requires more fresh air than any other. Physicians do not hesitate to send convalescents to the Adirondacks or Colorado to sleep in camp or entirely out of doors, and every one tells of the marvelous benefits derived from life in the open air.

Every average weak-lunged subject will often sleep in a room with windows closed because he fears the result of too much air.

If you sleep with a window open from the bottom you can avoid a direct current.

Never sleep in garments worn during the day—which are loaded with the exhalations of the body. The night robe should be loose, comfortable and light. Headaches, a sense of fullness, congestion, swelling of the face or eyelids, may have other causes, but they may all be produced by sleeping in an ill-ventilated room.

The dead stupor induced by inhaling carbonic acid gas is not sleep, but a condition similar to that produced by semi-aphrodisiac or drugging. It cannot rest nerves and muscles, but exhausts them.

Do not sleep with the wind blowing in your face, if you find by experience that such a draught gives you neuralgia. You can have a continuous supply of fresh air without running any risk. Do not imagine that you do not require fresh air because you have weak

and in tune with life.

Do not go to bed in an angry or perturbed mood. Sufficient unto the day is the evil thereof.

Don't carry your worries and cares to bed with you. Turn the key on the vestibule of life and rest in peace, so you may be fit to take up your burdens, whatever they may be, refreshed by hours of complete repose.

Don't attempt to induce sleep through medicines or narcotics. More human misery has been caused through sleeping draughts than can be undone in the entire twentieth century.

To attain healthful sleep there must be normal fatigue of muscles as well as of brain. The highly strung brain worker wrought up to a tremendous pitch of nervous excitement and conscious of his own fatigue is oftenest the victim of insomnia.

Sleeping draughts are not what this mentally overworked subject requires. Bodily exercise, rest for the agitated mind and exercise for the starved muscles surely bring natural sleep, if the victim of sleeplessness will patiently follow the necessary regimen.

The habit of sleep can be acquired. I learned the power of repose only when I was threatened with life-long invalidism. One of the greatest mistakes the nervous woman makes is in the idea that because she is in this excitable temperament she must always keep busy. The woman who cannot be idle for a second is the very person who should cultivate doing nothing.

The incessant activity, plus the necessary expenditure of vital force each waking hour of life requires, is one of the chief reasons for the broken-down, nervous wrecks one meets among women every day of the year.

Learn how to do nothing. Practice cultivating complete rest, any woman can do it. Begin by completely relaxing every nerve and muscle for five minutes a day. If you are a home woman, go to your own room and give orders that in no event are you to be disturbed. Draw the curtains and close the door, if down, if possible.

Turn out the lights. Seek the rest and sweet peace of dreamless sleep with a

Spermaceti, 2 1/2 ounces.  
Oil of sweet almonds, 2 1/2 ounces.  
Rosewater, 1/2 ounce.  
Attar of rose, 1 drop.

## MILK OF ROSES.

Place in a water bath 1 ounce of fine white melted vegetable oil soap, and 6 ounces of pure fresh rosewater, then add one ounce each of spermaceti and white wax, and continue the heat until all are melted.

## Next, take 1 pound of bleached almonds,

beat them to a paste in a clean marble mortar, with 2 1/2 pints rosewater gradually added until the operation is finished. Strain this emulsion, without pressure, through double white cheese-cloth, and run very slowly into the previously formed soap mixture. Mix with energy. Toward the end of this part of the process two drams of attar of rose, who dissolved in 5 ounces of alcohol, are to be let into the mixture very gradually, during the last part of the operation.

## LIQUID POWDER FOR WHITENING

Pure oxide of zinc, 1 ounce.  
Glycerine, 1 dram.  
Essence of rose, 15 drops.  
Sift the oxide of zinc into a jar, and add the glycerine, next the remainder of the rosewater, and mix thoroughly.

## Shake well and apply with a soft sponge

or the face will be streaked.

## J. M. A.—I hope you will excuse the liberty

I take in writing you, but do not suppose you would care to give me the information I want through the newspaper.

You may in one of your articles that a facial massage should be given by a person who thoroughly understands her business.

Will you kindly give me the name of one whom you can recommend?

A number of correspondents have written me asking me to recommend massage operators and various other specialists. I am sorry to appear disinclined, but I make it a rule not to give names or recommendations or endorse any business.

It is impossible for me to estimate the merits of an operator without thoroughly testing her work, and this I am not able to do.

MIRIAM.—Will you kindly let me know if you think it wise for me to use your Chloride of Mercury Lotion? I have used it for months to drive the pimples, and I am still under the influence of it. I am still under the influence of it. I am still under the influence of it.

Which of your five beautiful recipes do you "breathe"? What is the matter with my hair, do you think? It is very curly and long, it is as brittle as when I comb it. It is as brittle as when I comb it.

I should only use the lotion when necessary, although I do know of women who use it year in and year out, with no apparent detriment.

Any of the breathing exercises are equally good for the throat and development of the chest.

There is something wrong with the circulation of the skin of your scalp. Try a course of scalp massage.

MRS. E. K. P.—I have been giving my face first to Dr. Pincus, and it seems to be doing me good. I am still under the influence of the doctor's care, and my face looks dreadful. I am ashamed to go out in public.

The old idea of driving disease out of the skin has been exploded, and the highest authorities now treat "skin" diseases locally. Those who know most

## about skin diseases, notably the great

Vienna specialists, unhesitatingly declare that actual cutaneous eruptions should be treated externally. One no longer hears of driving skin diseases in or out, as in the case of internal diseases.

The pimples of which you complain may be the outward sign of an internal disorder, but they are not the cause of it. Indigestion, constipation, improper food, nervous breakdown, and liver trouble may produce your crop of pimples. They are not the vehicles by which you may get rid of the conditions that produce them. If your general health is not good, attend to that first.

While, try the following external remedy; it may prove locally useful:

Precipitated sulphur, 1 dram.  
Tincture of camphor, 1 dram.  
Glycerine, 1 dram.  
Rosewater, 4 ounces.  
Shake the bottle and apply frequently.

Of course, this lotion will not have any effect on a constitutional malady. You should have the cause treated. Skin eruptions of a common order are frequently induced by neglect or mistaken ideas of the proper treatment. They are warning signals of an internal condition requiring immediate attention. The treatment you require you evidently have not secured.

## DIET AND HYGIENIC POINTS

ANXIOUS.—Will you tell me what you think is the best thing to eat to whiten the teeth? I have tried to use a cosmetic give, as my hands are so painful, I have tried to use a cosmetic give.

It is constitutional with some persons to have what you might call yellow faces. The human teeth are of many shades, and if yours are of the yellow variety, there is no process by which they could be made a clear pearl white. If your teeth are stained use the powder and dentifrice for which I give recipe.

RECIPE FOR TOOTH POWDER.

Urtica root powder, 4 ounces.  
Precipitated chalk, 4 ounces.  
Oil of peppermint, 12 drops.  
Cudbear, 60 grains.  
Oil of lemon, 5 drops.  
Oil of neroli, 1 drop.

EXCELLENT LIQUID DENTIFRICE.

Quillaia, 3 ounces.  
Starch, 1 ounce.  
Cloves, 12 grains.  
Cinnamon, 12 grains.  
Cudbear, 60 grains.  
Oil of peppermint, 12 drops.  
Oil of lemon, 5 drops.  
Oil of neroli, 1 drop.

MAY T.—I am 18 years old, 5 feet 2 inches in height, and weigh 115 pounds, but would like very much to be a little taller. Many of my friends think that I will not grow any more, but my father and mother both say I will, and I see no reason why I should not. I have a good appetite, and I eat everything I like, and I exercise every day. I would like to know if there is anything I can do to make myself taller.

Best the white of an egg to a stiff froth, add an equal amount of sweet almond oil, mix thoroughly and apply at night to the face or to the brown spots wherever they are. In the morning remove with water and apply this lotion.

ANTIPHELTIC WATER.

Rosewater, 100 grains.  
Spirits of camphor, 10 grains.  
Tincture of benzoin, 6 grains.  
This lotion may be applied two or three times a day if convenient.

RECIPE FOR FACE BLEACH.

Bichloride of mercury, 4 grains.  
Tincture of benzoin, 6 grains.  
Water enough to make 8 ounces.

Use as often as agreeable.

Do not forget that bichloride of mercury and corrosive sublimate are one and the same thing. Proper enough to use, in certain cases, but dangerous to be left within reach of ignorant persons and young children.

SCURF.—Will you please give me a cure for scurf. The skin is very dry and scaly, and I have used ammonia and water, but it does not seem to take effect. I am a young man, and I have a good appetite, and I eat everything I like, and I exercise every day. I would like to know if there is anything I can do to make myself taller.

Scurf is often caused by nervous excitement. Try sponging the afflicted parts with a weak solution of borax in water. Do not use hot water, and do not use soap.

Apply a light powder made as follows:

PROPER PREPARATION POWDER.

Saltic acid, 10 grains.  
Boric acid (in fine powder), 30 grains.  
Talc, 10 grains.  
Mix and sift through a fine silk strainer.

I give you an astringent lotion for the shiny skin.
